SF COMPANY BACKGROUND

Sign Future is a company that specializes in providing services to the advertising industry.

SIGN FUTURE

Sign Future is a technology-driven company focused on upgrading the traditional advertising industry.

Founder Jiro Goh entered the industry in 2012, starting from basic design and production.

In 2018, he opened the first store in Klang and began serving major clients, including **Huawei**, **Tuition Centers** in Kuala Lumpur and Selangor, and **Xing Fu Tang** across Malaysia.

In 2020, during the MCO period, Sign Future transformed its business by:

- Moving to a factory in Shah Alam

- Launching 3D illuminated signage wholesale

- Creating Malaysia's first automatic quotation platform for 3D signs

- Introducing 3D printing production

This marked the shift from traditional manual work to automation and scalable manufacturing.

Today, Sign Future is growing from a manufacturing company into an industry platform, with a clear mission:

To empower clients, improve efficiency, and bring technology into the future of advertising.

VISION

To transform the traditional advertising industry through automation, innovation, and scalable systems—empowering clients across Malaysia and beyond.

MISSION

To build efficient, automated, and scalable signage systems that help clients attract more customers, enable designers and partners to increase their income, and elevate the standards of the advertising industry.

SELLING POINTS

Our Key Advantages

Malaysia's First 3D Sign Automatic Quotation Platform

Instant pricing that improves efficiency and reduces waiting time.

Scalable 3D Printing Production

Multiple machines ensure fast turnaround and stable wholesale supply.

Designed for Business Growth

Helping sign companies, designers, and agents close more deals and increase profit.

Consistent Quality Control

Industrial-level production replacing traditional uncertainty.

Reliable Nationwide Delivery

Supporting partners throughout Malaysia.

PRODUCTION OVERVIEW

Quality is the foundation of Sign Future's manufacturing.

From material selection to final inspection, each signage product undergoes systematic quality control to guarantee reliability and long-term performance.

To further protect our clients' investment, all finished products are secured with durable wooden crate packaging, minimizing transportation risks and ensuring safe delivery across Malaysia.

We take pride in producing every piece with precision, care, and responsibility—because every sign represents our client's brand.

End-to-End Signage Production

We provide a complete in-house production process from fabrication and quality inspection to secure wooden-crate packaging and nationwide delivery ensuring every signage project meets professional commercial standards.
